Download MySQL Installer - MySQL

Windows (x86, 32-bit), MSI Installer **MySQL Installer** provides an easy to use, wizard-based installation experience for all your MySQL software needs. Included in the product are the latest versions of: MySQL Server.

④ MySQL Community Downloads

◀ MySQL Installer

The screenshot shows the MySQL Community Downloads page. At the top, there are tabs for "General Availability (GA) Releases" (which is selected), "Archives", and a search icon. Below the tabs, the heading "MySQL Installer 8.0.21" is displayed. A dropdown menu under "Select Operating System" shows "Microsoft Windows" is selected. To the right, a link "Looking for previous GA versions?" is visible. The main content area lists two download options for Windows (x86, 32-bit):

File Type	Version	File Size	Action
Windows (x86, 32-bit), MSI Installer	8.0.21	24.5M	Download
(mysql-installer-web-community-8.0.21.0.msi)			MD5: cf2b46ba35a4443f41fb8e94a0e91d93 Signature
Windows (x86, 32-bit), MSI Installer	8.0.21	427.6M	Download
(mysql-installer-community-8.0.21.0.msi)			MD5: b52294aa854356c266e9a9aec737ba08 Signature

Click the second link

④ MySQL Community Downloads

Login Now or Sign Up for a free account.

An Oracle Web Account provides you with the following advantages:

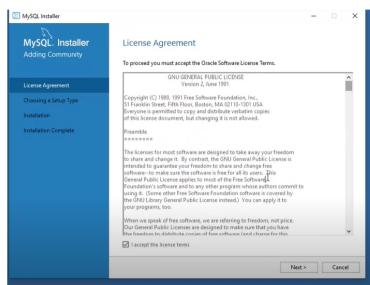

- Fast access to MySQL software downloads
- Download technical White Papers and Presentations
- Post messages in the MySQL Discussion Forums
- Report and track bugs in the MySQL bug system

The screenshot shows the MySQL Community Downloads page with a "Login" and "Sign Up" button. Below the buttons, a note states: "MySQL.com is using Oracle SSO for authentication. If you already have an Oracle Web account, click the Login link. Otherwise, you can signup for a free account by clicking the Sign Up link and following the instructions."

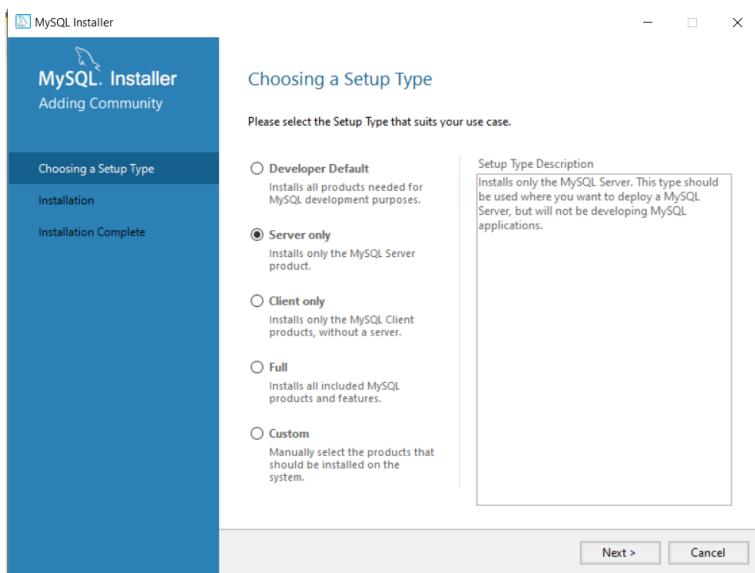

No thanks, just start my download.

Here select “No Thanks, just start my download”. Once downloaded run the program.

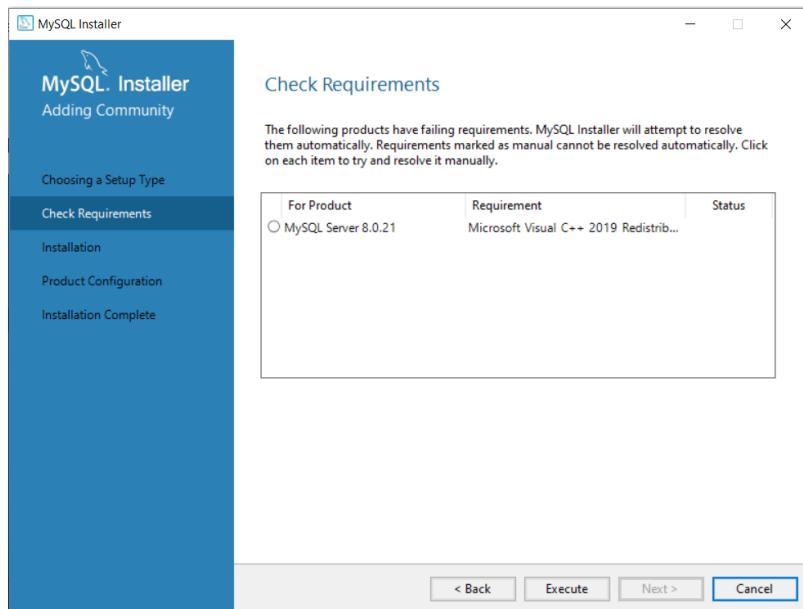

You may first see a Licence Agreement Page, if so Agree and next.

Then you will see this page. Select Server Only

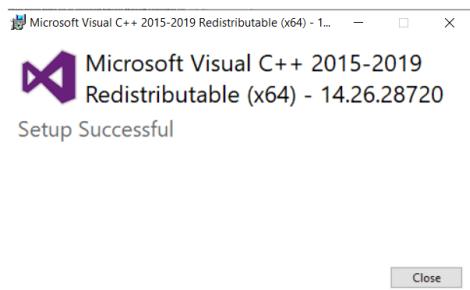

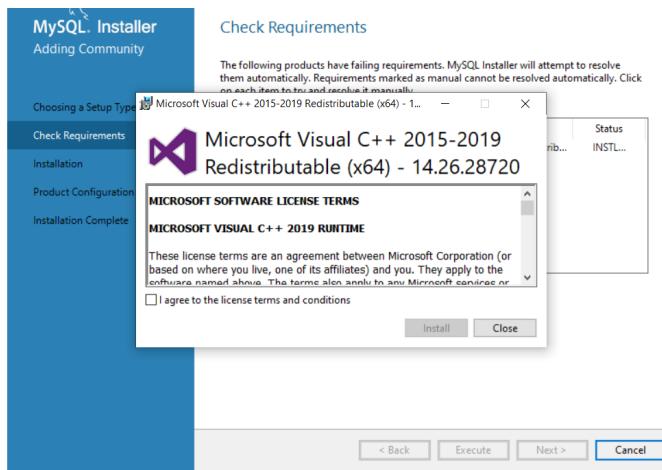

If you see this screen:

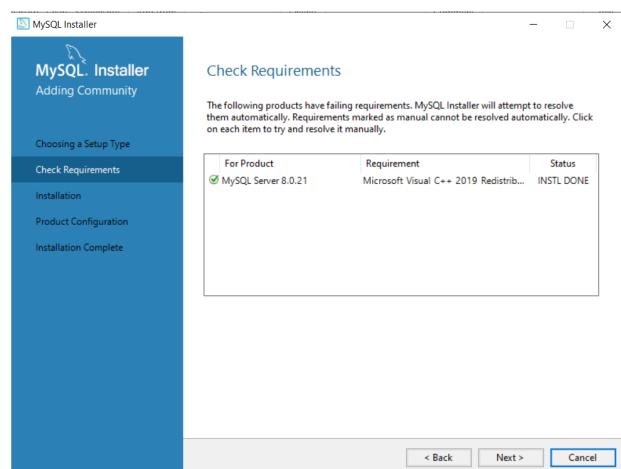

Just select execute.

Agree to licence and click install

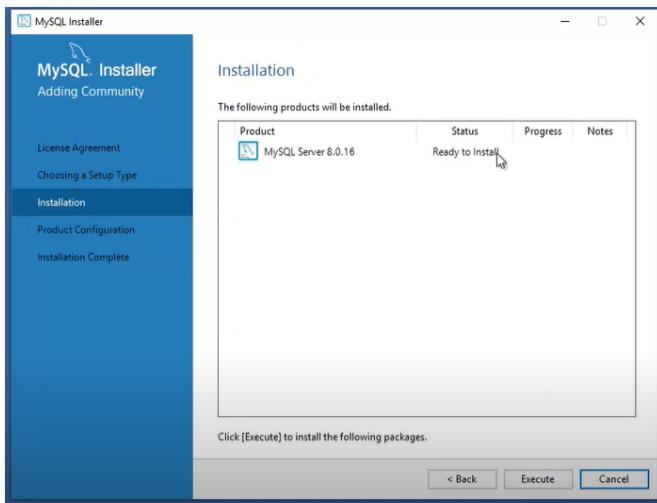

Click Close

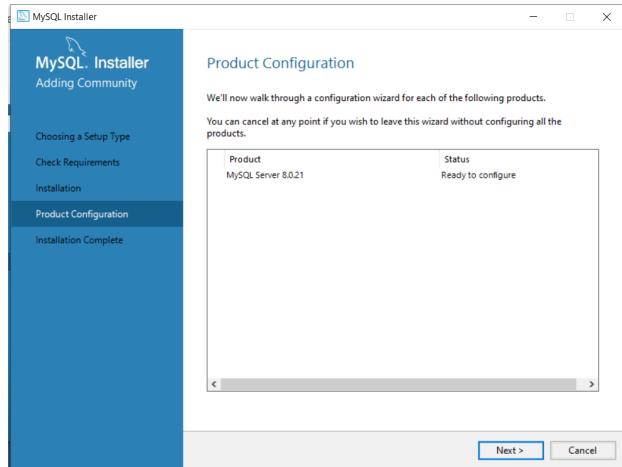

Click Next

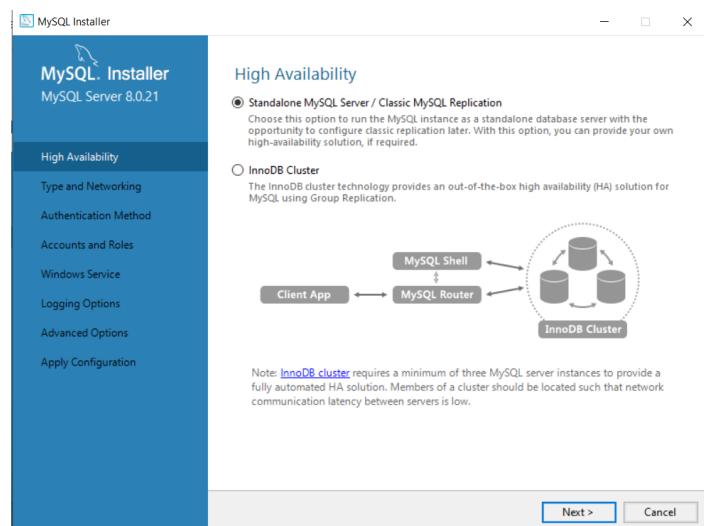

Click execute and once complete select next

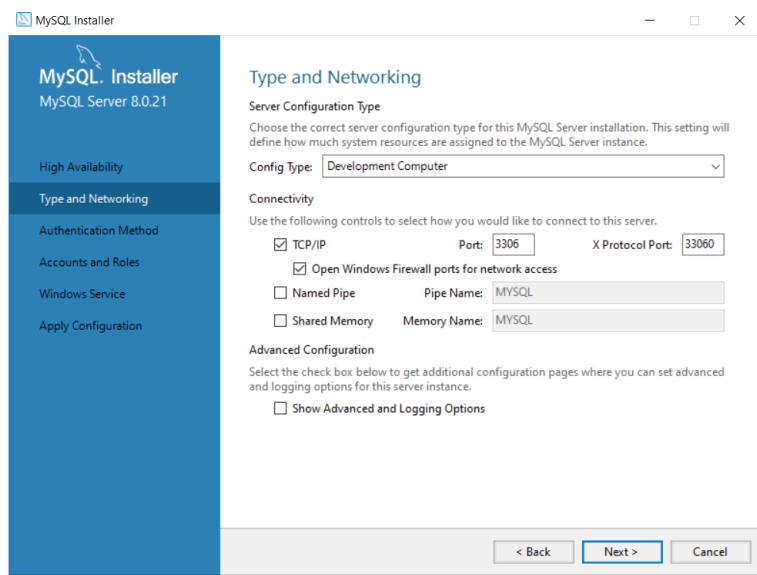

On the next page select next

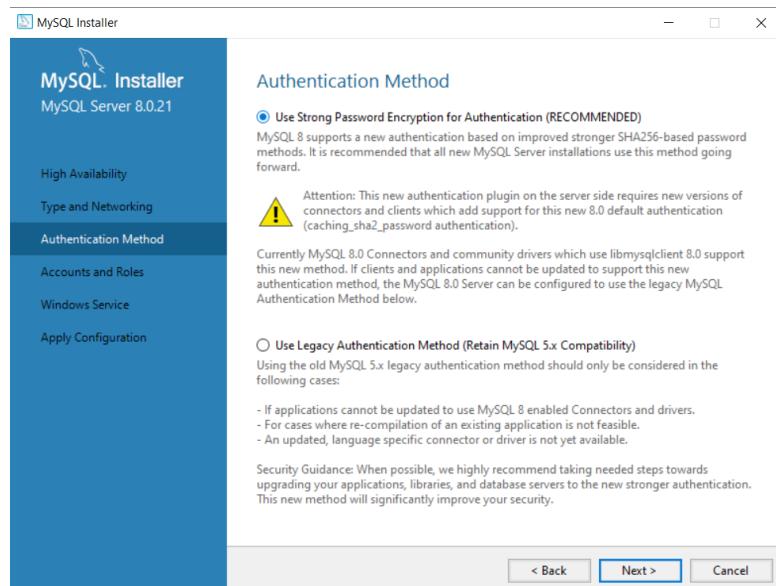

Here, select the first option. Standalone. Then click next

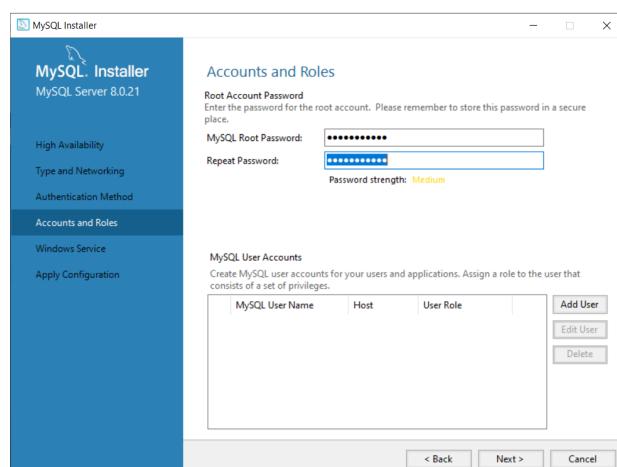

Here do not make any changes, keep the default settings laid out then select next

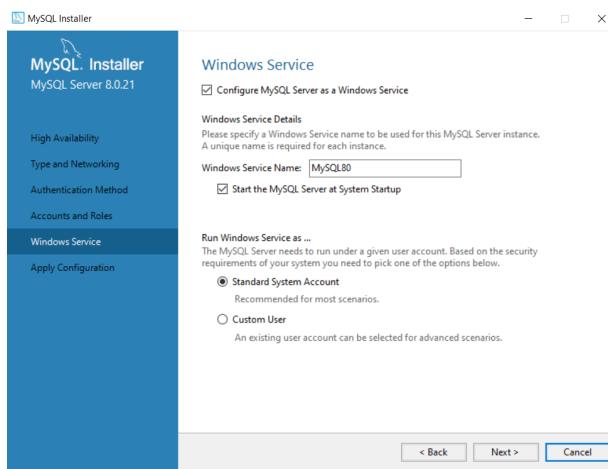

Also keep the recommended settings here and select next

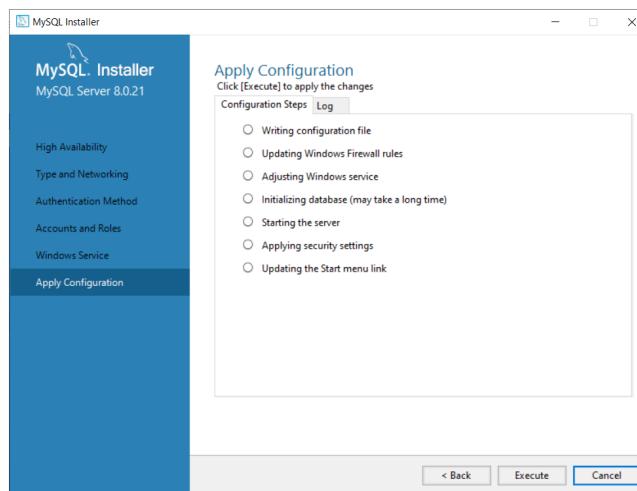

Next choose a password, but don't make changes to the user accounts, select next.

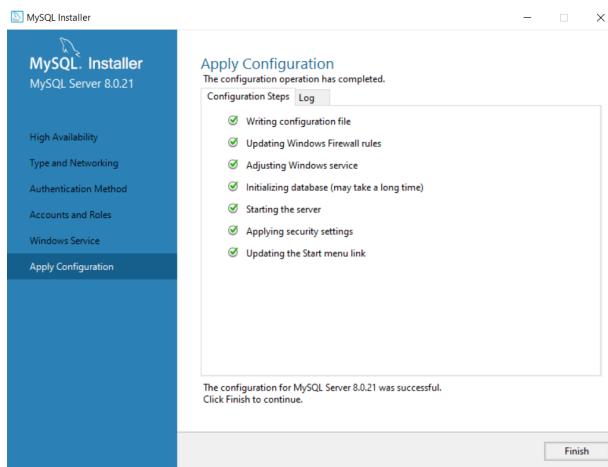

Here, leave everything as it is and select next

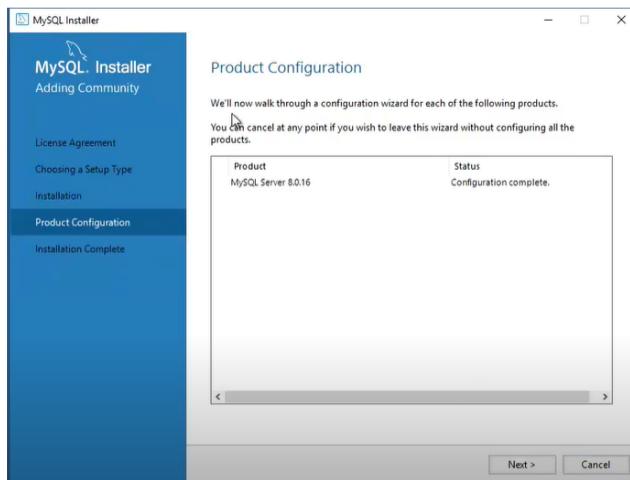

Here just click execute

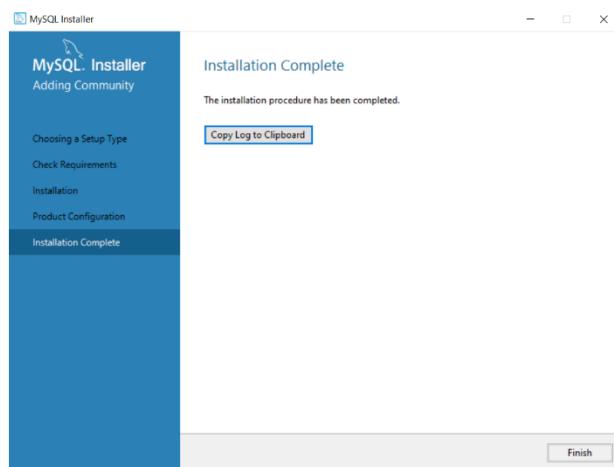

Then select Finish

Click next

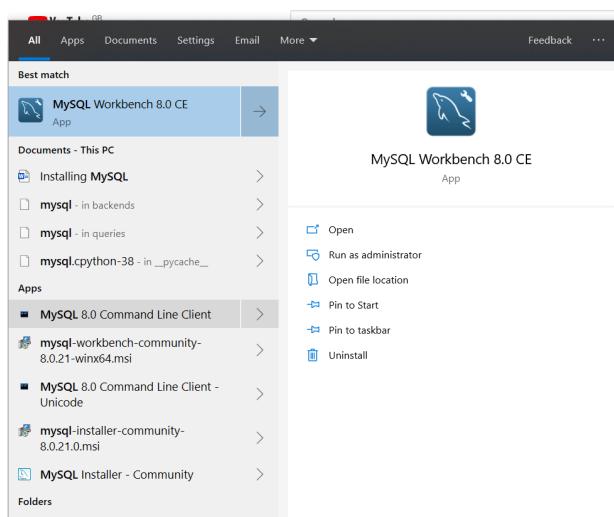

Finally here select Finish!

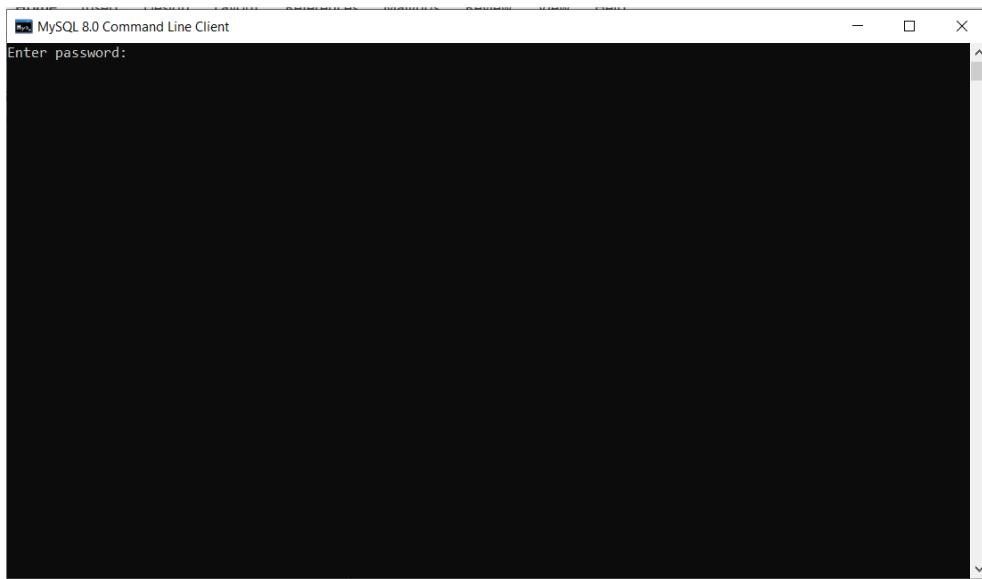

This will only install the command line version.

Search for MySQL in your windows tab and select the command line client

Enter your password

Ready to code

```
MySQL 8.0 Command Line Client
Enter password: *****
Welcome to the MySQL monitor. Commands end with ; or \g.
Your MySQL connection id is 13
Server version: 8.0.21 MySQL Community Server - GPL
